Work Experience

Cashfree Payments   **Bengaluru**

Software Engineer Intern – *(Java, Spring Boot, REST-API, Maven, Unit Testing)*   **Jun '24 − Present**

- Designed and developed the **Card Eligibility** feature for payments, handling **70%** of the implementation and adding validation for error messages to ensure seamless user experience.
- Contributed to system reliability and performance by implementing unit tests and optimizing the **paymentCode** selection logic based on **card details**, using tools such as **Grafana** and **Datadog** for real-time monitoring.
- Collaborated with senior engineers and participated **in code reviews** to enhance coding practices and adopt industry standards.

Techtwins Technologies   **Jaipur**

Software Engineer Intern - *(*HTML, CSS, JavaScript, and ReactJS*)*   **Jun '23 − Jul '23**

- Designed and developed the login page and main dashboard for the E-commerce web application, handling **60%** of the **UI/UX** development and integrating advanced features like row grouping and data filtering with Ag-Grid for improved data management.
- Ensured code stability and reliability through comprehensive unit testing, optimizing performance with server-side pagination for faster load times and a smoother user experience.

Projects

Portfolio / *HTML, CSS, JavaScript, ReactJS*

- Created a compelling narrative of career milestones and designed responsive, user-centric UI/UX.
- Optimized user engagement with smooth scrolling, animations, and intuitive navigation.
- Project Link**:** https://ayush-kmr.github.io/Ayush-Portfolio/

Car Rental System / *HTML, CSS, JavaScript*

- Delivered intuitive, responsive designs across diverse devices, ensuring seamless user experiences and accessibility.
- Optimized platform performance with fast loading times and clear, user-friendly pricing structures to enhance satisfaction.
- Project Link: https://ayush-kmr.github.io/Car-Rental-System/

Weather Forecasting / *HTML, CSS, JavaScript, API*

- Developed intuitive, responsive interfaces for seamless user interaction across devices.
- Integrated APIs for real-time weather and forecast data, ensuring accuracy and enhancing user decision-making.
- Project Link: https://ayush-kmr.github.io/Weather-Forecasting/

Certifications

- React Basic: | COURSERA
- User Interface in Android Studio: | COURSERA
- SQL (Basic): | HACKERRANK
- Problem Solving (Intermediate): | HACKERRANK

Achievement

- Solved 450+ DSA Question | LEETCODE & GFG

Skills

Technologies/Frameworks: C, C++, JAVA, HTML, CSS, React JS, Node JS, Git, Spring Boot, Problem Solving.

Functional Skills: JIRA, Bitbucket (CI/CD), Agile Scrum Methodologies, Confluence, Git, Github, Kibana, Grafana, Datadog.
